# WC MINER

## **WC MINER**

WC Miner is part of Binance chain and was created by individuals who have had success in the crypto markets in the past. As like most you, time and time again, we have found scams in the passive income industry and decided to make our own miner. Unlike most miners who take on such high ROI's that make the project unstable and in no way make it past day 10. We offer a more sustainable 3.3% daily and fund the project with our very own lottery business model and dice roll. This will allow the project to have high growth at a much smoother pace then a quick pump in dump.

## **LOTTERY**

WC Miner is offering multiple options on our platform that are attractive to all investors. Blockchain embedded lucky draws-based rewards will be automated blockchain activity which will occur every 6 hours, 12 hours, 24 hours. Each one has a specific minimum entry point, and you can have unlimited entries.

- 6-hour Lottery: The minimum per entry is 0.02 BNB
- 12-hour Lottery: The minimum per entry is .05 BNB
- 24-Hour Lottery: The minimum per entry is 0.1 BNB

Every lottery winner will get 72% of the pool and 20% goes into the contract sustaining growth for both winners and investors. There is a 8% fee for marketing.

## **Daily ROI**

WC Miner is offering 3.3% Daily by sustaining the growth of our project through our business design, lottery, and dice roll. With our plan to limit daily withdraws to 3.3% you can withdraw what you earn over time and keep the ecosystem steady. Never allowing a dump of large capital to come out will only drive the project further and allow it to grow into one of the top Miners in the market!

## **Weekly Rewards**

Our weekly rewards are what I love about WC Miner! No other miner is offering a compound reward like ours. Our business model is designed to incentivize the investor for compounding, letting your investment grow through rewards and daily ROI, instead of punishing you for wanting to grow your investment.

Weekly Rewards Chart

At least 1 compound per day			
1 <sup>st</sup> week	3% of TVL	0 Withdraws	1 compound per day
2 <sup>nd</sup> week	5% of TVL	0 Withdraws	1 compound per day
3 <sup>rd</sup> week	7% of TVL	0 Withdraws	1 compound pre day
4 <sup>th</sup> week	9% of TVL	0 Withdraws	1 Compound per day

## **Road Map**

WC Miner is only the beginning! As we continue to boost the growth of WC Miner for BNB, we will slowly begin to launch other miners for all coins! AVAX, BTC, DOGE, MATIC, SOL, ETH, BUSD... the list goes on. Once we feel comfortable to the point that our BNB miner is stable and sustainable on its own, we will begin moving forward on the next coin.

We want to grow with our community and become the most profitable miners for you! We are currently in talks of moving the site to a mobile app for easier access and a WC Miner wallet to track your investments with all WC Mining projects in the future.

## **AUDIT**

For WC Miner, the audit was conducted by one of the best in the industry, Encrypto Securities. They gave us a great evaluation of 80% benchmark with no critical issues. Zero back doors and no fraudulent code in the contract.

Audit can be found here...

<https://www.encryptosecurity.com/AuditRecord?project=64>

## **Deposits withdraws and fees**

We wanted to bring the best and keep our fees low as we could. We are investing into the community and decided to do 2% deposit fee, 7% withdraw fee, 5% compound fee. The compound fee is all for marketing and never taxed twice in a day. There is a 2% dev fee that comes out of the 7% withdraw fee.

Referral rewards will be 12% of the initial the deposit.

## **Conclusion**

WC Miner is a sustainable portfolio with high growth potentials offering 3.3% daily ROI with weekly bonus rewards that will run up to 9% for just compounding. Plus, lottery rewards will also contribute to the sustainability of WC Miner. We will not have to rely solely on new investors daily with lottery and dice roll providing a revenue stream to help fund the contract. This alone will increase the allocated value of the contract. We created this for the community, remember this your BNB.
